## Objectives

I trained in composition and classical violin at conservatoire in London, UK. On completion of my degree I quickly found success as a concert violinist. I performed as a soloist with orchestra and as a recitalist but after being awarded my own radio show in 2017 felt that I would like to concentrate further on my composition. I began devoting a larger proportion of my working week to composing from 2017 which quickly resulted in well received commercial releases and commissioned work for media.

## Education
